Landmark Project: Powering Nations

JULIUS NYERERE HYDROPOWER PROJECT

2,115 MW

A monumental project providing clean, reliable energy to millions, fostering sustainable regional development and economic growth for Tanzania.

NotebookLM

A Diverse Portfolio of Energy Solutions

Project: **AL LAYYAH COMBINED CYCLE POWER PLANT**
Capacity: **1,026 MW**

Maximizing energy efficiency and reliability through advanced combined-cycle technology.

Project: **300 MW SAAD SOLAR PV PROJECT**
Location: **KSA**

Harnessing the power of the sun to deliver large-scale, clean energy.

NotebookLM

The Engine of Our Expertise

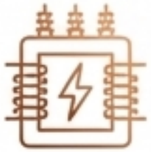
Our ability to deliver holistic, start-to-finish solutions is powered by five integrated business lines, working in synergy to address the world’s most complex energy and infrastructure challenges.

NotebookLM

Our Integrated Business Lines

Wire, Cable & Accessories

Manufacturing and supplying a comprehensive range of high-quality power and communication cables.



Electrical Products

Providing essential components from transformers to meters that form the backbone of modern electrical systems.

Engineering & Construction

Delivering turnkey solutions for complex energy and infrastructure projects from design to commissioning.

Digital Solutions

Integrating smart technologies and digital services to optimize energy management and grid efficiency.

Infrastructure Investments

Developing and investing in vital infrastructure projects that create long-term value and sustainable growth.

NotebookLM

A Global Footprint, A Worldwide Team

18,000

Employees driving our mission across numerous countries.

NotebookLM

A Foundation of Sustainable Governance
We are committed to caring for our environment, our communities, and upholding the highest standards of governance. Our ESG principles are not a separate initiative; they are integrated into every aspect of our business.
NotebookLM

Our Commitment to ESG

Environment

We actively promote renewable energy solutions and are dedicated to reducing our environmental impact across all operations.

Social

We invest in the health and wellbeing of our employees, support local communities, and are committed to training the leaders of tomorrow.

Governance

We maintain a strong, independent board and ensure complete transparency in our reporting and business practices.

Download our full Carbon Footprint Report 2024 and Elsewedy Electric Sustainability Report 2024 for more details.

Innovation for a Resource-Efficient Future

Product Spotlight: ISKRAEMECO's Iskrasonic IW.1 Smart Water Meter

Receives Prestigious Measuring Instruments Directive (MID) Certification

- Ensures billing accuracy and consumer confidence across Europe.
- Advanced leak detection capabilities to reduce non-revenue water.
- Provides data-driven insights for sustainable water management.

NotebookLM

Acknowledged Leadership in Renewable Energy

ISKRAEMECO Secures the Prestigious PMAYA 2024 Energy and Renewable Energy Award

Honored for significant contributions to renewable energy projects in East Africa.

“The company’s projects have not only increased energy efficiency but have also helped to ensure the region’s long-term sustainability and economic prosperity.”

NotebookLM

Strategic Partnerships Powering Urban Development

ELSEWEDY ELECTRIC Partners with IL CAZAR Developments to Provide Sustainable Energy Solutions for Premier Real Estate Projects

Supplying innovative energy solutions, including cables, transformers, busway systems, and meters.

Featured Projects:

Safia • The Crest • Aian • The Vill • Creek Town • Glen

NotebookLM

Your Integrated Partner for a Thriving Future

From generating gigawatts of clean power to engineering the smart infrastructure of tomorrow’s cities, Elsewedy Electric provides the integrated expertise and unwavering commitment to excellence required for sustainable progress. We don’t just build projects; we build possibilities.
